

SMART HIGH-EFFICIENCY VEHICLE

...ride the future

SMART Car Americanized by ZAP®

Introducing SMART, the car that redefines mobility. ZAP is proud to now offer one of the most fuel-efficient, gas-powered cars on the planet. This new 60 Mile Per Gallon City Coupe has been designed as the car of the future with many "smart" features that address today's crowded urban traffic and rising energy prices. Don't be fooled by its charming, futuristic look, the SMART will surprise you with its handling, its stylish, roomy interior for 2 passengers, and its innovative design. After taking Europe by storm, ZAP now offers the Americanized version to the USA!
